トリのかたちのトリザラ

美濃焼の窯元“作山窯”と共作によって誕生したトリザラ。

TORIZARA

Torizara is made up of two Japanese words, Tori and Zara, and it is from here that these plates were inspired.

- In Japanese, 'Zara' or 'Sara' refers to a plate or serving tray.
- Tori can have two meanings. One meaning is to take something, as in take from the larger plate to your smaller one. The second meaning is 'a bird'.

And with this in mind, we created these expressive bird-shaped Torizara. Made of fine Mino Ware, they can be easily stacked and stored and the tail section of this plate, with its gentle incline, allows for a comfortable and smooth grip.
